The State of New Jersey dog licensing requirements.

The owners of all dogs (7) seven months of age or older are required to annually apply to the licensing clerk of the municipality in which he or she resides for a dog license. In order for the license to be issued, the owner must present proof that a licensed veterinarian has vaccinated the dog against rabies and that the duration of immunity from that vaccination extends through at least (10) ten months of the (12) twelve month licensing period. An exemption to the rabies inoculation requirement shall be granted if the owner presents written certification from a licensed veterinarian that the dog cannot be vaccinated due to a medical condition or course of therapy.
