Mr. Londono,

First, let me welcome you to the race for Town Council.

As you know, following the conclusion of what I believed to be an extremely flawed process, I decided to withdraw my candidacy in the Democratic Primary and continue my campaign for re-election as an Independent candidate.

That candidacy, along with yours and that of Democratic nominee Veronica Velez, has now been confirmed by the Morris County Clerk.

While I have many qualifications as a public servant and a government official, none of those qualifications matter more than my commitment to our town, and my love for our people - a love you no doubt can understand as a longtime resident of Dover yourself.

That love, for me, extends to making sure residents always know what's going on in Town and where I stand on the issues that affect all of us.

I believe that we, as candidates seeking to earn each resident's vote, owe it to them to let them know where we stand.

So I am today proposing a series of four debates featuring me, you, and Ms. Velez between now and November - one on housing, one on public safety, one on environmental issues, and one on general issues - to be moderated by a neutral third party that we all agree on.

Should this proposal not interest you, I hope you will commit, at the very least, to participating in the Candidate Forum that the League of Women Voters will likely seek to facilitate in the Fall.

I have already advised them of my willingness to participate.

Any or all of these debates can be in English, Spanish, or a combination of both.

Regardless of our political differences, I hope you will agree that we should put all of that aside and have a civil, substantive discussion for the benefit of the people we seek to serve.

I look forward to your response and can be reached via email at [KarolRuiz4Dover@gmail.com](mailto:KarolRuiz4Dover@gmail.com).

Sincerely,

Karol Ruiz  
Council Member, Ward Three  
Town of Dover, New Jersey
